DEPARTMENT OF COMPUTER SCIENCE & ENGINEERING  
PROJECT EVALUATION FORM**

**PROJECT TITLE :**

**REVIEW No: 1**

**CANDIDATE DETAILS**

| <b>S.No</b> | <b>REGISTER NO</b> | <b>CANDIDATE NAME</b> | <b>GUIDED BY<br/>Name &amp; Signature</b> |
|-------------|--------------------|-----------------------|---|
|             |                    |                       |   |
|             |                    |                       |   |
|             |                    |                       |   |
|             |                    |                       |   |

| <b>Subject Matter</b>                                    | <b>MARKS out of 10</b> |
|--|------------------------|
| Abstract & Introduction                                  |                        |
| Understanding background and topic                       |                        |
| Specifies Project goals                                  |                        |
| Existing & Proposed System                               |                        |
| Summaries algorithms and highlights the project features |                        |
| Specifies the testing platforms and benchmark systems    |                        |
| Project Planning   |                        |
| Summaries the ultimate findings of the project           |                        |
| Question and Answer                                      |                        |
| Presentation skills                                      |                        |
| Total  |                        |
| Comments   |                        |
